NetDRIVE Annual Community Meeting

24-26 September 2025

Durham University (Hybrid Event)

- Focused on sustainable research computing for UKRI
- Meet eight new champions for transformational change who will be joining the project in September
- Learn about a £1M funding call, including £200K reserved for projects led by early career investigators
- Initiate four key working groups on Ethics and Sustainable Progress, Metrics and Reporting, Sustainability Clauses in Contracts and Conditionalities, and Short Format Online Training.

Keynote Speakers:

Martin Farley

Associate Director of
Environmental
Sustainability Programme,
UKRI

Alastair Basden

Head of COSMA HPC
Service, Durham
University

Adrian Friday SFHEA
